

CALTITE CONCRETE

HOW DOES THE EVERDURE CALTITE SYSTEM WORK?

- The ultimate concrete water system includes a 10 year warranty.
- Simplified design.
- Simple guaranteed detailing for joints and pipe projections.
- Reduced construction time and cost.
- Permanently waterproof.
- Unaffected by projections of pipes, lighting fixtures.
- Allows staged construction of multi-story designs.
- Performance Guarantee from the manufacturer to the owner.

The **EVERDURE CALTITE SYSTEM** provides totally effective integral waterproofing and corrosion resistance, built-in to the concrete itself, without membranes or built-up treatments. This results in superior performance with major savings in both time and cost.

EVERDURE CALTITE SYSTEM with over 30 years' proven track record, provides maintenance free permanent waterproofing, eliminating the need for periodic disruption and replacement necessary with barrier systems.

WHERE CAN THE CALTITE SYSTEM BE USED ?

Podiums, Parking Garage Roof Decks, Shotcrete Walls, Basements, Tunnels, and Retaining Walls. Caltite can be used effectively in other applications. Other applications: Swimming pools, Ornamental Pools, as well as fountains and water tanks.

HOW AFFORDABLE

EVERDURE CALTITE has been shown to be competitive with membrane systems in initial cost and shows significant savings in cost related to construction schedules.

PLACEMENT

EVERDURE CALTITE has been designed for "User-Friendly" placement either in a cast-in-place or shotcrete application.

HOW TO ORDER

If you want water-proof concrete at a affordable cost, contact your local Central Concrete sales representative for further details.
