

## QUIKRETE Repair

**Acrylic Concrete Cure & Seal** Highly water resistant clear coating that protects and seals concrete surfaces. Also promotes proper curing by retaining water in freshly placed concrete.

**Use for:**

- Curing new concrete for a stronger and more durable finish
- Sealing concrete surfaces against water, salt, grease, etc.

Lbs.
1 gal. bottle

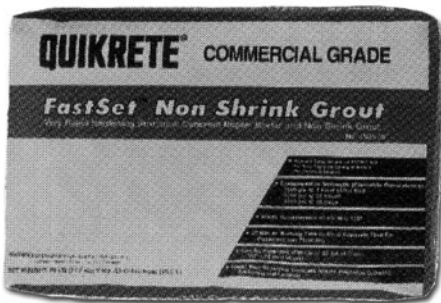

**Blacktop Patch** Asphalt cold patch material for use in hot or cold weather. Does not require heating or mixing. Pour right out of the bag and into place. Can be formed and compacted. Patched surface ready for use instantly.

**Use for:**

- Repairing holes and large cracks in asphalt driveways and pavement.

Lbs.
60 lb. bags

**Fast Set Non Shrink Grout** Designed for structural concrete repairs form 1/4" to 24" deep. Features a 30 minute set time, non shrink characteristics and rapid strength gain. Can be mixed to a plastic, flow-able or fluid consistency.

**Use for anchoring and grouting:**

- Anchor bolts
- Steel column bases
- Bearing plates
- Pre-cast concrete keyways
- Floor leveling

Lbs.
60 lb. bags

**Fast Set Repair Mortar** Specifically formulated to make structural repairs to any concrete, masonry or stucco surface. 30 minute working time and unique properties allow sculpting of the material during placement. Exceeds ASTM C 928 R2.

**Use for:**

- Vertical and overhead repairs to any concrete masonry or stucco surface.
