

Arxx Wall Systems

CONCRETE PRODUCTS

Arxx High Performance Wallsystems are the leading insulated concrete form (icf) wallsystem. Our high performance wallsystem provides low-risk, superior quality building solutions.

Please call for prices on the following items 1-916-806-9414

Building Simplicity

- expanded polystyrene, interlocking units provide superior insulation, strapping and vapor/air barrier
- steel reinforcing bars simply snap into place
- forms accept all interior and exterior wall finishing

Building Convenience

- customized service for your specific needs
- installer training programs for total product performance (offered year-round and near you)

Building Savings

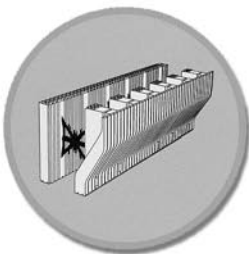

- with lower material and labor costs
- with faster construction schedules year-round
- with reduced risk - and less stress

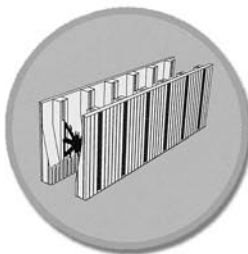

Building Awareness

- of comfort and safety - superior thermal (R22), sound (STC 50) and fire insulation (3-hour rated)
- of the environment - no CFCs, HCFCs or formaldehyde are used in the production or our products
- of better living
