- Pavers
- Concrete
- Brick
- Walls

Concrete & Masonry "Wet Look" Lacquer

Glaze 'N Seal brand "Concrete & Masonry 'Wet Look' Lacquer" is a solvent-based acrylic coating that offers the ultimate protection in a clear finish. Must be designed for interior and exterior use to bring life, luster, and a deepened, fresh (wet) appearance to patios, driveways, garage floors, and other surfaces even when dry. Lacquer must be easy to apply and fast drying (one hour) . It must repel food, grease and oil stains, and have superior abrasion, stain and sunlight resistance. Must work well on exposed aggregate, stamped concrete, porous brick, natural stone, Mexican tile, stucco, manufactured stone, adobe, and plain & colored concrete. Not to be used on dense tile or slate.

Wet Look II Sealer

Glaze 'N Seal brand "Wet Look II Sealer" is a water-based sealer designed to give the surface a deepened "wet look" appearance. Sealer to be VOC compliant and provide resistance to oil and grease stains, scuffing and scratching. Sealer to be suitable for use on exposed aggregate, natural & manufactured stone, slate, brick, stamped concrete and tile on interior and exterior applications.

Multi-Purpose Water Base Sealer

Glaze 'N Seal brand "Multi-Purpose Waterbase Sealer" provides a clear, acrylic waterbase finish designed to protect and beautify tile, concrete and masonry surfaces. Sealer to penetrate the surface to protect against all organic stains, including cooking oil, grease, and beverages. Sealer to be usable outdoors as well as indoors, and to be extremely easy to apply and maintain. Sealer to have a semi-gloss finish which enhances the natural color of the surface. Must work well with unglazed tile, slate, stamped and exposed aggregate concrete, brick, natural and manufactured stone, terra cotta, and stucco.

Slate Sealer

Glaze 'N Seal brand "Slate Sealer" is a clear, water-based finish designed to protect and beautify slate, flagstone, and quarry tile. Sealer to protect against all organic stains including: cooking oil, grease, and beverages both indoors and outdoors. Sealer to be non-flammable, have no harmful vapors, have a low sheen appearance, be water-repellent and suitable for use as a grout release.

Stripper/Degreaser

Glaze 'N Seal brand "Stripper/Degreaser" is a concentrated, heavy-duty alkaline cleaner designed to degrease heavily soiled areas. Cleaner to contain no phosphates or ammonia, and be suitable for use in interior and exterior applications and be appropriate for virtually any water-safe surface. Cleaner to be capable of removing synthetic and acrylic waxes and floor finishes from ceramic tile, grout joints, natural and cultured stone, cement surfaces and vinyl flooring.

Stone Sealant Impregnator

Glaze 'N Seal brand "Stone Sealant-Impregnator" is a water-based, "Natural Look" penetrating sealer providing exceptional stain resistance without harsh solvents or odors. Sealer to provide a barrier that resists moisture and stains, while at the same time remaining breathable. Sealer to be suitable for interior and exterior applications on horizontal as well as vertical surfaces on such materials as absorbent stone, tile, cement and saltillo.
