22.8 lbs. per bundle.

Size	Blade, in.
2	83/4x12

Razor Back Shovels

Razor Back shovels feature a two rivet 11' tab socket. This unique shovel is tapered to protect the handle from damage under downward force. The socket is 2" longer than most other products thus, there is more wood in the socket surrounded by steel to provide superior strength. Two rivets lock the handle in place.
