 weight = 32#

TM-300

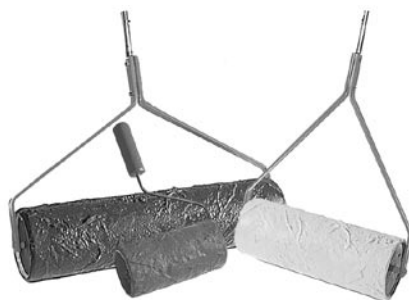

**TEAR DROP FAN**  
 total size= 60"X60"  
 weight = 50#

TM-1600

**LARGE AND SMALL ROLLERS**

Large rollers are available in two feet and three feet width. These large rollers are great for applying stone texture to large expanses of concrete. Large rollers are 10" in diameter to minimize repeat. Small rollers are in 9" and 6" widths. These rollers are great as a companion tool to many of our Brickform texture mat designs. The small rollers aid in texturing along walls in places where mats won't reach.

Large	TR-36 - 36"	TR-24 - 24"
Small	TR-9 - 9"	TR-6 - 6"
