## WALKABOUT TEXTURE SHOES

With brickform walkabout texture shoes, you can fix that spot you see in the middle of your work with speed and ease. Be where you want to be-on you work-when you want to be there.

No more trying to replace mats on finished work, no more fighting floppies against vertical faces. You'll wonder how you ever got along without texture shoes. Walkabout texture shoes are available in stone and slate textures. Sold in pairs, one size fits all.

TS - 100 stone texture shoes

TS - 200 slate texture shoes

## COLOR PRODUCTS

With Brickform Color Products, including color hardener, antique release agent, blush-tone Acid Stain, and Cem-Coat cementitious coating, you can transform an ordinary concrete slab into a luxurious decorative floor.

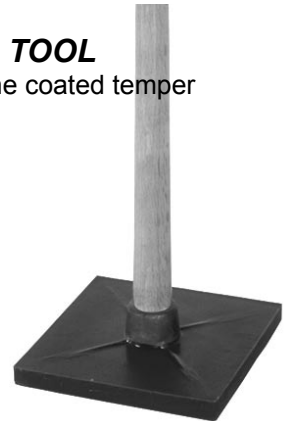

Please give us call for a complete list of color products.
