

Multiquip

Multiquip is a worldwide manufacturer/distributor of light and medium sized construction equipment. Our diverse product lines include the highest quality equipment in the areas of soil compaction, concrete placement, concrete finishing, dewatering pumps, portable power generation, welders and light towers.

Rebar Cutters

The powerful cutting strength of Multiquip rebar cutters enables a single operator to cut rebar faster and easier than with manual cutters, torches and saws.

Rebar Cutter

MQ#	Size	Description
ABC-19.....	3/4"	Electric/Hydraulic
HBC-25.....	1"	Electric/Hydraulic
MB-25-HD.....	1"	Electric/Hydraulic

High-Cycle Vibrators

Motor-in-head vibrators use 180-Hz 230-volt 3-phase power. Productivity is maximized due to high-centrifugal force and high frequency.

We carry a full line of rammers. Please call for a specifications sheet on each rammer.

* 2-Cycle Gasoline-Powered Oil-Injected - Oil-Bath Lubricated

These revolutionary rammers eliminate the need for mixed fuel. The oil-injected design prevents service calls and downtime due to engine burn-up, carbon build-up, fouled spark plugs, and carburetor gumming.

* 4-Cycle Gasoline-Powered - Oil-Bath Lubricated

Reduces noise, emissions and fuel requirements while increasing performance. No need for mixed fuel.

* Diesel-Powered - Oil-Bath Lubricated

Choose these rugged, powerful rammers for jobsites that implement diesel fuel. Heavy-duty construction and reliable performance are the real benefits of this series.

Rammers

Please call for Types and Sizes
